

## **Vince Roberti, EIT**

Project Engineer

### **EDUCATION**

Western Michigan University – MSCE 2016

### **REGISTRATION**

Italy

### **PROFESSIONAL EXPERIENCE**

Vince began his engineering career in Rome, Italy in 2009, with a general contracting firm and worked as a registered professional engineer for private companies and in the governmental sector. During his time at WMU, he led a strategic initiative at to model campus facilities in BIM, using Revit Software.

Working with JDH since early 2015, Vince has shown an excellent ability to combine the technical side of engineering analysis and design with the practical side of commercial construction. His experience working on the general contractor side of the industry has been an important piece of his education.

Vince has worked on a variety of projects, including a new medical facility for Spectrum Health, Grand Rapids G. Ford International Airport expansion, Bay De Noc Community College.

### **PROFESSIONAL AFFILIATIONS**

American Concrete Institute ACI  
American Institute of Steel Construction AISC  
American Society of Civil Engineers ASCE

### **RESPONSIBILITIES**

As part of his training to become a professional structural engineer, Vince has worked on new construction projects from start to finish, performing analysis and preparing construction documents with oversight from a Project Manager. He has extensive experience in Revit with an emphasis on structural modeling. Vince is also refining and improving our Revit integration with the Structural design workflow, updating old standards for current needs, and documenting these standards and procedures in an internal BIM Execution Plan.
