

Afreen Mohamed Sulaiman, EIT

Project Engineer

EDUCATION

Texas A & M University – MSCE 2016

PROFESSIONAL EXPERIENCE

Afreen began her engineering career in New York, in June of 2015, with a structural consulting firm as a Summer Intern and worked on various residential and commercial projects. She also worked on rehabilitation and construction engineering projects for various notable bridge projects like Brooklyn Bridge, George Washington Bridge and Newburgh Beacon Bridge. During her time at TAMU, she worked on developing analysis software and also designed a three-span continuous T-beam girder.

Afreen began with JDH in July 2016, and has quickly shown an excellent ability for engineering analysis and design. She has worked on a variety of projects, like the Grand Rapids Christian School expansion, Washtenaw Service Center, and Haven Church expansion.

PROFESSIONAL AFFILIATIONS

American Concrete Institute ACI

American Institute of Steel Construction AISC

American Society of Civil Engineers ASCE

RESPONSIBILITIES

As part of her training to become a professional structural engineer, Afreen has started to work on new construction projects from start to finish, performing analysis and preparing construction documents with oversight from a Project Manager.
