

Craig E. Tamlyn, PE

Principal/Senior Project Manager

EDUCATION

Michigan Technological University - BSCE 1997, MSCE 1999

REGISTRATION

Colorado New York
Michigan West Virginia

PROFESSIONAL EXPERIENCE

Craig began practicing structural engineering in 1999 after completing his graduate work in structural engineering at Michigan Technological University. He worked for a large structural engineering firm in Denver for four years before moving back to Michigan in 2003, when he began at JDH Engineering. Craig has been project engineer on numerous projects, including multi-residential, commercial, educational, medical, and industrial facilities.

Some notable projects of Craig's include Women's Health Center of West Michigan, the Ray and Joan Kroc (Salvation Army) Corps Community Center, the Kent County Consolidated Human Services Complex, GVSU Mackinac Hall Addition, Holland Christian High School Additions and Renovations, Lakewood High School Additions and Renovations, Holiday Inn of Battle Creek, and Union Square Condominiums.

PROFESSIONAL AFFILIATIONS

American Institute of Steel Construction AISC
American Wood Council AWC
Masonry Institute of Michigan MIM
National Council of Examiners for Engineering & Surveying NCEES
Precast/Prestressed Concrete Institute PCI
Structural Engineers Association of Michigan SEAMi

RESPONSIBILITIES

In his role as project manager, Craig is involved in all phases of the project, from design through construction. He is responsible for development and design of the structural systems and their interface with other building systems, coordination of the preparation of structural contract documents, construction administration, and management of project engineering and other staff.
