

## Sam Gordon, EIT

Project Engineer

### EDUCATION

Michigan Technological University – BSCE 2023

Michigan Technological University – MEng 2024

### PROFESSIONAL EXPERIENCE

Sam joined JDH in March 2026 after having gained three years of engineering experience with a West Michigan-based architectural & engineering firm specializing in education. Prior to that, Sam completed his degrees in Structural Engineering at Michigan Technological University. Sam has experience designing structures across the Midwest, working on projects involving steel, concrete, masonry, and timber construction. Projects have included building additions, remodels, and new construction.

### PROJECT EXPERIENCE

Sam has gained valuable experience in a range of projects including commercial, educational, and industrial. Some notable projects include:

- **Corewell Health Remodel** – Project Engineer for a remodel of Corewell Health’s C-Section suite.
- **Potterville MS/HS** – Project Engineer for a gym addition and academic wing renovation.
- **Kenowa Hills HS** – Project Engineer for a new athletic complex addition including new football stadium, team rooms, press box, baseball/softball dugouts, and press box.

### RESPONSIBILITIES

In his role as a project engineer, Sam works alongside senior engineers and project managers, performing analysis and design of various structural systems. His responsibilities include structural analysis and design, structural BIM modeling, construction document preparation, reviewing shop drawings and assisting with RFI’s, and conducting site visits.
